

L.D. COLLEGE OF ENGINEERING

Dear LDites,

Your patient wait, to know what is happening behind the scenes for celebrating 75 years of excellence at our dear Alma Mater LDCE, is over.

Faculty, Students and Alumni have worked together to create a Centennial Vision. This vision is made more memorable as **Honorable CM of Gujarat, Shri Bhupendrabhai Patel** unveiled the **Centennial Vision** and the **75th Anniversary Logo**.

The **Centennial Vision** for LDCE lays the roadmap for the next 25 years of our college, with an aim to:

1. Achieve **Academic Excellence** in current and emerging technologies.
2. Provide **Best-in-class Infrastructure** and support systems in a world-class campus.
3. Enabling **Enhanced Engagement** with **Industry and Society** at large.

We have also launched the **75th Anniversary Logo** for the year-long events, activities and celebrations.

The **75th Anniversary Logo** is a realization of our founding principles, core values, and the vision of LDCE. It is inspired by the Rubik's Cube.

A Rubik's cube has 6 sides. These sides reflect the core values of the Centennial Vision:

- Academic Excellence
- Innovation
- Collaboration
- Self-reliance
- Leadership
- Industry & Social Relevance

The 16 squares of the logo represent the departments of LDCE.

With the launching of the vision and the logo, we kickstart the formulation of a historic event that will be a milestone for our esteemed institution and a proud moment for Gujarat and India.

We will be celebrating the the year-long activities beginning 20 Jun, 2022 with a **Grand Celebration Event** organized on **6,7,8 Jan, 2023**.

Stay connected and help us register all our 35000+ alumni on our www.ldcealumni.net digital platform.

Looking forward to see you all during the various events and activities and for the **Grand Celebration**.

Prof. Dr. Rajul K Gajjar (BE Civil '83; ME Structure '94)
Principal,
L.D. College of Engineering
